Examiner Comment:

The examiner construes dependent claim 10 literally. The claim requires the addition of an amount of the water-purifying material, i.e., 0.1 g – 5 g, in 1 liter of water-to-be-purified. Claim 10 does not cover the addition of 10 g of the water-purifying material into 2 L of water-to-be-purified, or any other amount of water-to-be-purified if not equal to 1 L. That is, claim 10 does not speak to the proportion of water-purifying material to water-to-be-purified: It is limited to the specified range of purifying material added to a specific quantity of water-to-be-purified (i.e., 1 L) (not more, not less).
